

Since our founding, the goal of the South Bay Community Resource Center has been to empower individuals and organizations to pursue the calling that God has placed on their hearts and lives. We specifically support those impacting the Los Angeles South Bay region. Our vision is also wide-reaching, and with that in mind we also offer resources to those engaged in doing good works outside the South Bay area.

We feel strongly that our ability to serve and support the community flows out of our relationship with God and the calling He has given us - to love our neighbors and pursue His justice in our world. To that end, we offer financial and practical support to all of our partners in order to equip them with the skills and means to impact to their local community and the larger Kingdom of God. (The specific vision of our founders is to actively support a range of partners that consists of, but is not limited to, those working to offer healing ministry and support the development of youth in the community.)

Our partners fall into two major categories: faith-based organizations and social-impact groups. The first category consists largely of South Bay churches and their sub-ministries, including everything from inner-healing centers to web ministries. The second category encompasses non-profits and similar organizations seeking to create sustainable social-impact in the South Bay region of Los Angeles and beyond.

We offer a variety of resources focused in four primary areas: Financial Resources (Grants), Administrative & Communications Consulting, Organizational Networking, and Pastoral Care.

- **Financial Resources:** We offer recurring grants ranging from \$5,000 - \$10,000 (renewable up to 3 years) to qualified applicants. In addition we help individual philanthropists partner together and identify giving opportunities through which their donations will have the most effective impact.
- **Administrative & Communications Consulting:** We offer administrative staff for start-up organizations and ministries, as well as communications consulting in areas ranging from brand identity & web-presence to public speaking & fund-development.
- **Organizational Networking:** We host numerous networking functions for groups seeking to impact their community. We hope that through these events they can connect with one another to multiply their resources and effectiveness.
- **Pastoral Care:** Our team of pastors and ministers is available to offer prayer and spiritual guidance for both personal and organizational issues.

Our hope is that you would prayerfully consider partnering with us to see the Los Angeles South Bay connected, equipped, and transformed. May God bless you and keep you!
